It's time for smart living

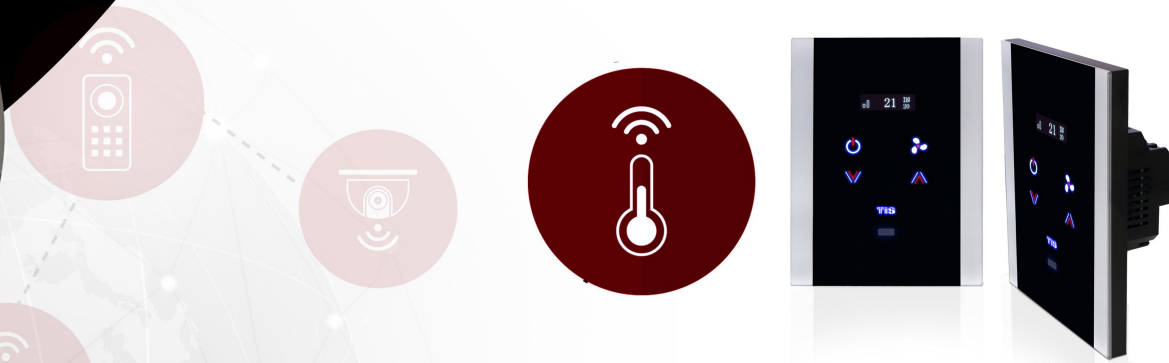

VENERA IS ALWAYS RIGHT

It is true. Venera Thermostat Panel, another smart solution by TIS group. Knows everything about the temperature situation in your residence.

This WIFI wall Thermostat consists of four touch buttons with intelligible icons and an elegant 1" OLED which displays indoors/current temperature, and fan speed.

Welcome Venera Thermostat in the easiest way: replace the old thermostat switch with this newly engineered device, connect it to Internet and control your home temperature efficiently.

Working with this thermostat is very convenient; just touch the up/down button to raise or lower temperature till the desirable thermal level is set. The good thing is floor heating, FCU unite, split AC, and VRV AC are controllable through this wall thermostat.

This device is manageable via smart phones. Once it is connected to Internet, you are able to monitor and maintain your home temperature using TIS mobile app from anywhere you are. Besides, since this application is equipped with GPS, you can configure Venera Thermostat to automatically shift to saving energy mode once you are away and set to desired temperature AC when you are near home.

Having a timer makes this device quite functional. Defining a specific time for it to be turned ON/OFF is very helpful. Imagine if your parents want to stay at yours on weekends, or if you work at your home studio each day for a certain time duration. Venera Thermostat smartly manages AC function based on the schedule you define for it.

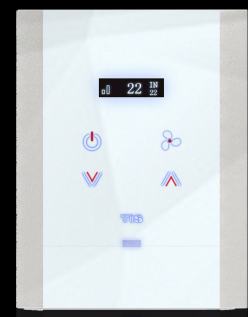

This panel can be installed in many residential, commercial and industrial settings. It prevents energy wastage to a considerable extent. For example, consider the case of Mosques; you know how much energy is consumed in these places due to evermore occupancy. Now if there is a chance to have the AC automatically turned on 30 minutes before and off after each prayer time, there will be about 70% of energy saving per day.

In addition, this panel has an energy meter to inform you about energy consumption on a daily/annual basis.

This beautiful Thermostat is available in Black and White and its button color is customizable in a 256 color range. As you see Venera Thermostat panel easily fits into your home design and it incorporates with you and your plans efficiently.
